EXPERIENCE

Jr. Full Stack Developer

Dec 2023 - May 2024

Striffle Private Limited

(6 Months)

- Developed and maintained responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs for various modules and third-party services.
- Collaborated with the team to fix bugs, optimize performance, and improve user experience.
- Worked on real-time features, authentication, and role-based access control.

PROJECTS

1. E-Commerce Web Application

MERN Stack

A full-stack e-commerce platform where users can browse products, add to cart, place orders, and make secure payments.

- User authentication and authorization using JWT
- Product search, filter, and pagination
- Admin panel for managing products, orders, and users
- Integrated Razorpay for secure payments

2. Task Management System

MERN Stack

A task management application to help users organize tasks, set priorities, and track progress.

- Create, update, delete, and categorize tasks
- User authentication and protected routes
- Dashboard with task statistics and filters
- Responsive design for all devices
